This masterclass will help make your **Shadow Board** a success and unlock the power of multigenerational knowledge.

Getting the insights of a broad mix of staff, members or clients into board level discussion can bring great benefits – not least in diversity of thought.

Shadow boards are an increasingly popular way for companies to achieve this, whilst also providing an opportunity for their future leaders to level-up their strategic skills.

The session is designed to be practical, strategic and interactive. It aims to help the main board introduce & induct new shadow board members so they understand their role and how they should interact with the main board. This workshop will help participants to challenge and consider how effective boards run and highlight areas for change and improvement.

Content

We will be looking at the following topics:

- The role of the board
- The difference between the Executive team, the Shadow Board and the Main Board
- Legal responsibilities and the role of the Shadow Board
- Good Governance and Good Challenge
- Board Process and Board Effectiveness
- Board Dynamics and the relationship / communication lines between the Shadow Board and the Main Board
- Term limits and board evaluations

Who should attend this talk?

The workshop is suited to anyone with an interest in understanding more about the boardroom environment. Participants will be given the opportunity and time to unpack what makes a good board and understand the relationship between the Shadow Board and the main board.

The workshop is practical, strategic and interactive and is presented by two experienced board directors. Participants become part of a unique network of support and influence for those with board aspirations, wherever they currently are on their career journey.
